DR. HULL'S TRUSS.

Pink one relief and cure of Hernis or Rup-ture. This Sergical instrument is need, to well known to the Medical profession, and so extensivly used by unfortunate sufferers labouring under the disease of Hernia, that a particular account of its mechanical construction of its surgical effects is thought unnecessary.— The subjoined remarks from Physicians and Surgeons of high respectability in our country, are the results of much praotical experience in

are the results of much praotical experience in the use and application of this truss.

James Thatcher, M. D. author of the Modern Practice, in his second edition, under the subject of Hernia, remarks. "Dr. Hull is exclusively entitled to the credit of first adapting the true Surgical principle for the radical cure of Hernia. He happily conceived the idea that the pad of the Truss should be so constructed as simply to support the muscular fibres around the ring or aperture as much as possible, in the state in which they are maintained in perfect health. Unless this be attained the parts can never recover their natural tone, whatever may

heatth. Unless this of a training the parameter recover their natural tone, whatever may be the degree of pressure applied."

Samuel Ackerly, M. D. in his excellent edition of 'H. oper's Medical Dictionary,' under the head of 'Truss,' after enumerating the exist resulting from the use of the defective trusses formerly wire. says. This evil was not fully remedied until Dr. Amos G. Hull, of New York, turned his attention to the subject, and by his improvement in the construction of trus-ses, has condited it certain that all recent roptures and those of children, may be permanentelly cured, and those of old people and of long standing, may, in many cases, also be reme-died. The pad of Dr. Huil's Truss is concave and not convex; and hence the raised circular margin, by proper adaptation, presses upon the sides of the hernial opening, and tends to close

M. I. Knapp, M. D. late Physician and Surgeon to the Baltimore General Dispensary. in a communication to Doctor Hud, says: have applied your trusses in several hundred cases during the last three years. A great many upon whom I have applied your trusses, been radically cured; and some of these have been radically cured; and some of these were cases of long standing, where all other trusses had failed. I send you a note of thanks from Mr. P. a citizen of great respectability, who was cured of a bad screen cupture, of thirty-five years standing, by wearing one of your trusses for two years. He had worn of their trusses twenty nine years. His son, also, aged 16 years, runtured from his infancy, was eu. d under my care in less than two years. - A es e of scrotal rupture, of twenty years state ding, in a labouting man forty years old, was cured under my notice by one of your trusses in six months. A case of groin rupture, from lifting, in a labouring man, thirty years old, on whom I applied one of your tru-ses, the day after the injury, was cured in torce months eralone, can make known to the Sur the full powers and excellence of these mounts. Your trusses are exclusively instruments. preferred by the Professors in both of the Medi cal Schools in this cay, and the Faculty in gen-

Baltimore, January, 1830. Valentine Mott, M. D. Professor of Surge ry, says. The great and signal benefits which are produced by this Truss, result from its strict subservience to, and accordance with

The operation and effect of this Truss is directly the reverse of all Trusses heretone in use; which being convex, tended to enlarge the directly the reverse of all trusses. the dimensions of the runture opening. I am of opinion that the union of Surgical design & mechanical structure in this instrument re it what has long been the desideratum of Prac-tical Surgeons in Europe and America.

Professor Mott also in locturing upon Here

nia, recommends Dr. Hull's Truss to the exclusi n of all others.

PROSPECTUS Series of Standard Work. Protestant Episcopal Courth

UNITED STATES; N. Y. PROTESTANT EPISCOPAL PRESS

REV. WM. R. WITTINGHAM, A. M.

REV. WM: R. WITTINGHAM, A. M.

Provae Editoroffic Foulity Vener, and of the Christonia English of the General Protesting English School Union.

The second presentation of this design to the Episcopal public, is owing to no want of encouragement, or anticipation of difficulty in its accomplishment.

A considerable delay in the execution of the former proposals, deemed necessary for the maturing of the original design, and for ascertaining exactly the nature of the wants which the publication is intended to supply, left the Trustees of the Protestant Episcopal Press, free to after, and, if circumstances should warrant, to enlarge their pisa. Communications from several quarters, and from the most respectable sources, produced by this delay, have led to the conviction, upon which the Trustees now propose to act that a plan far more comprehensive than that first presented, is called for by our Church in this country. A more republication of works of English and American divines was then contemplated. It is now intended, by the introduction of every thing necessary to adapt the works selected to the circumstances of the Protestant Episcopal Church in the United States, to give the publication the character of an original work, and, at the same time, to extend its design so far as to embrace the works of the primitive Christian writers, and if occasion present itself, of foreign divines.

PLAN OF THE WORK.

TUDAL JEWEL.

PLAN OF THE WORK.

And if occasion present itself, of foreign divines.

PLAN OF THE WORK.

LTranslatons from the precious freguents, still in existency of the writing of medicine from such other of the writing of continuity immediately from the Alpottes, and from such other of the works of the Fathers to the Gurch in the Pathers to the Fathers and the Pathers to the Fathers to the

Church. The names of CRAN merkan Epicepalian.

Of works such as the above, while they are the most desirable auxiliaries of which a clergyman can possess himself, no inquiring Episcopahan would, we think, willingly be destitute: one or more copies are almost indipensable to a Sunday School or Parochial Library. To facilitate their acquisition, and to render practicable their distribution by benevolent individuals and Societies, the proposed publication has been undertaken, and is offered on the following liberal terms:—

TERMS.

TERMS.

FOUR VOLUMES in Duodecimo, will be published yearly, to appear as nearly as possible once a quarter. Each volume will contain 300 pages, nearly printed on a good substantial paper, and well done up in muslin backs, with labels.

Subscriptions will be received for no less term than a year, at Ford Dollars fer and the time of subscription.

No departure will be made from these terms. Upon a strict atherence to them, depends most materially the success of this plan.

Agencies will be established in most of the principal cities and towns in the United States, where subscribers may obtain their copies free of expense. To those who may so direct, the volume will be sent by mail, stitched in paper covers, at their expense. Postage, to the extreme limits of the Union, will be 264 cents per volume; in proportion for a less distance. Clergymen who may obtain six subscriptions from their parishioners, and forward the payment in advance, will be allowed the scrent's copy gratis.

Others disposed to said in the accomplishment of the undertaking, and becoming responsible for the payment of the subscriptions which they may obtain will be allowed a commission of 10 per cent. upon their amount.

The first volume, for the present year, will appear

amount.
The first volume, for the present year, will appear about the 1st of May; and the second in the month of June; the third and fourth, as nearly as practicable, on the 1st of July and the 1st of October. Fir is proposed that the first two volumes shall consist of the following matter; or as nearly so, as may be compatible with the typographical arrangement of the work.

STANZAS.

I've sat and seen one bright wave chase his fellow on the strand, Then full away, nor leave a trace
Upon the printless sand—
Though scarce the pebbles felt the shock,
The waves have wern the solid rock!

rie sat and heard the autumn wind Amid the branches play, go softly mild, so blandly kind, it scarcely stirred the spray— yet soon it hore spring's verdant birth, her on its native earth.

Note: and seen the evening sun wick from the golden sky;
He long bright race of glory run,
And close his golden eye;
So slow he passed, scarce changed the light,
And yet he left the world in night.

An The yen sea in human life,
Events like billows, roll,
Homent on moment, strife on strife,
That change us, to the soul!
Hope sets—and being's light is post.

The stood on earth's most daring height,
And seen day's ruler rise,
Is his magnificence of light
To tri only through the skies,
An half the darkness of the world,
Far from his sluning presence hurled. All, too, that foles upon the earth, to, that fales upon the earth, For weak to linger here. Albasoms with a secon! birth, to deck the coming year, all loops, then, man's eternal dower, fi aler than a falling flower!

Ali no! like autumn leaves that die. That bloom again in spring, Fresh joys and trice from those gone by,

net, puter incense pring, rel when, like suns, hope sets in night, hall she not beam from worlds more bright
